

JBT Multi Scraper

Adjustable width

Available in 5 different widths

Adjustable scraper width

Hydraulic control

Fixed width

Available in 7 different widths

*Easy and durable solution
for many widths*

Specifications

The Multi Scraper is used for all scraping tasks and is available in 2 models:

One with adjustable scraper width in 5 different widths(1,61m - 5,10m), and one with fixed scraper width in 7 different widths(1,25m - 4,00m).

The Multi Scraper is supplied with brackets according to customer request. The scraper blade is made of steel armed rubber that makes the scraper extremely wear resistant.

Changeable brackets for all models of loaders, tractors, telehandlers etc.
